A	B													
32. Eating too much fat is dangerous ...	a. use pauses and silences													
33. During an earthquake, ...	b.check for injuries													
34. To add variety to your speech, ...	c. The average increase in the earth's temperature													
35. global warming is ..	d.because it can cause heart disease													
	e. stay calm													
1.5	<b>IV. Comprehension:</b> <b>A: Sentence comprehension: Read the following sentences and choose the correct choice.</b> 36. Since your heart can not lift weights to get stronger, it relies on you to do aerobic exercise. We understand from this sentence that..... a. we are too much dependent on our heart b. our heart is dependent on us to become strong c. weight lifting needs strong heart d.by aerobic exercise we breathe much better 37. Just as the weather organizations now forecast floods and strong storms, the national earthquake information centers may one day predict earthquakes. The above sentence means that..... a. earthquake prediction is a future possibility b. weather organizations may predict earthquakes in future c. earthquakes are nowadays predicted by some organization d. the storms and floods cannot be sometimes predicted 38.A smile on your face permits your audience to know that you are human and trustworthy , giving them more reasons to accept your ideas. The above sentence means that a speaker should..... a. try to laugh in front of his/her audience b. ask the audience to accept his/her ideas c. know that he/she is human d. build a warm and positive relationship with the audience	10												

**B: cloze passage:**

Fill in the blanks with the words from the list below. There is one extra word.

Include-excellent-actually-gestures-difference-create-humor

۱.۵

۱۱

The purpose of humor is not to be a comedian but for you to ..... (39).....a comfortable atmosphere and have fun with your audience. Humor can make the .... (41) ... between an average and a(n).....(41)....presentation. A little .... (42) ..... in your speech permits the audience to know you are human and people ....(43)....learn more if they are having fun. Try to .....(44)...personal stories or recent events to add fun to your speech. In this way you will improve it.

**C: Reading comprehension: passage (1)**

Read the following passage and choose the correct choice.

What did Leonardo da Vinci, Paul McCartney, and Napoleon have in common? They were all left-handed. Today about 15 percent of the population is left-handed. But why are people left-handed?

The answer is in the way the brain works.

The brain has two halves-the right half and the left half. The right half controls the left side of the body, and the left half controls the right side of the body. So right-handed people have a strong left brain, and left-handed people have a strong right brain.

The two halves of the brain are about the same size. But each side controls different things. The left right controls language, and logic (the science of thinking about or explaining the reasons for something).When you memorize the spelling of words, or when you put things in order, you use your left side. The right side of the brain controls your love of art, color and music .It is also good at recognizing faces. This doesn't mean that all artists are left-handed and all accountants are right-handed. There are many exceptions. Some right-handed have a strong right brain, and some left-handers have a strong left brain.

45. According to the passage, which of the following statements is true?

- a. Fifty percent of the population is left handed.
- b. The right side of the brain controls the right side of the body.
- c. Love of art is controlled by the right side of the brain
- d. Each side of the brain controls the same things.

46. Because of .....,they are right-handed or left-handed.

- a. the way the brain works
- b. the things people have in common
- c. the size of people's brain
- d. the things people do every day

47.the left side of the brain.....,the right side

- a.is smaller than
- b.is as weak as
- c.is stronger than
- d.is as large as

48.when you think and give reasons, you.....

- a. use the left side of your brain
- b. should memorize the spelling rules
- c. control your love of art and music
- d. have a strong right brain

**Passage(2)**

Read the following passage and choose the correct choice.

Our growing need for food, goods and energy has had many harmful effects on the environment Gases which are produced by car power stations and factories cause acid rain which kill trees and fish and damages buildings. If we use more environmentally- friendly forms of transport(those which do not damage environment)we can reduce this form of pollution

A layer of carbon dioxide and other gases traps heat and keeps Earth at the right temperature. This is called the greenhouse effect. But when we burn fossil fuels like coal- oil and gasoline we produce too much carbon dioxide which causes the temperature of the Earth to rise little by little. This global warning can then cause changes in climate.

ادامہ سوالات

۱۳

A layer of gas which is called ozone protects the Earth from harmful ultraviolet rays of the (sun these rays are lines of light that cause our skin to become darker). Certain chemicals which are used in factories such as CFCs have caused a hole to develop in the ozone layer. Too many ultraviolet rays can damage plants and sea life, and increase the risk of skin cancer. Most of the energy we use to heat and light buildings, run machines, etc. is made of burning fossil fuels. We will finally run out of these fuels, so we need to use other sources of energy such as wind and solar energy, that are renewable and do not pollute that air. We should also try to save energy.

49. According to the passage, fossil fuels ...

- a) decrease the amount of carbon dioxide in the atmosphere
- b) are the main source of pollution in the environment
- c) should take the place of wind and solar energy
- d) protect the ozone layer from harmful ultraviolet rays

51. We understand from the passage that.....

- a) global warming happens suddenly
- b) using environmentally-friendly forms of transport increases pollution
- c) certain amount of carbon dioxide is necessary for the earth
- d) global warming doesn't change the climate.

#### True or False

We understand from the passage that ...

- ( ) 51. Burning fossil fuels causes acid rain
- ( ) 52. Carbon dioxide causes the earth to cool down
- ( ) 53. The ozone layer is a protective layer around the earth
- ( ) 54. Wind and solar energy are renewable sources of energy
- ( ) 55. The ozone layer damage plants and sea life
- ( ) 56. CFCs are harmful for the ozone layer
